is different. There is no huge, marble-topped press, but the sheets are fed into a machine that is large enough to hold one chase, and having rollers on its legs. When the chase is fed in, the rollers are lowered and the paper is rolled into the stereotyping room. The forms are never lifted, and so the great fear of the old method—the possible pying of a form—is abolished.

This interested the visitors quite as much as the fact that the new method has no type-setting room. The men who had been watching the old method were charmed. The process of securing from the type a perfect impression of the type in solid metal plates, curved to fit the rollers of the great presses in the basement of the plant, was entirely new.

They were shown how the sheets of paper made is pressed into the type faces, making the impression of the type. The sheets are then molded, how the type and the

Disastrous Flood in Arkansas.
By Telegram to the Post-Dispatch.
LITTLE ROCK, Ark., Jan. 26.—Advices from Pochontosh, Arkansas, say that the river, Mud and Four Creeks are over their banks and are causing great loss of property. The river is higher than it has been since 1878. Cattle, fencing and buildings and timber have been swept away and a large number of cattle and horses caught in the mud and drowned. The flood is the most disastrous ever experienced in this State. The loss of property is estimated at \$1,000,000 of dollars.

MONEY.
NEW YORK, Jan. 24, 11 a. m.—The stock market this morning was quiet at the opening with prices steady, being either unchanged or but slightly fractions different from the close of last evening. The market developed a firm tone, however, and in part due to the fact that the market was strong, and before the close of the hour material advanced in some cases, and in others declined. The market was generally at small fractions better than the opening prices.

Eat Your Supper AT THE DELICATESSEN. CITY NEWS.

D. CRAWFORD & CO. have just made the purchase of the whole stock of a city merchant (a Frenchman with an unpronounceable name) at their own price, which is thrown into the great fair sale at prices which will grind the whole stock out at the double quick. See the immense loads of fine staple goods every department represents, and oh, just see the prices at which these nice goods are being given away.

"THAT'S MARK TWAIN."

An Amusing Incident of the Famous Beecher Trial.

By Telegram to the Post-Dispatch.
NEW YORK, Jan. 24.—The current issue of the *Shoe and Leather Trade* has this: "A New York banker was relating the other day an incident of the Beecher trial. He was a warm friend of the great preacher, but he was also acquainted with Mr. Fullerton, one of the counsel for the other side. Mr. Fullerton made an appointment with him to take him over to Brooklyn during the trial. Beecher was a witness. As he filed into court with the anti-Beecher procession—Fullerton, Beecher, Tilton and others—he had the uncomfortable feeling that he was in a false position, and he imagined there was treachery in Mr. Beecher's eyes as he observed him. Near the prosecuting group sat the man whom the gentlemen were speaking of, and whom he took for granted to be the "usual friend," Moulton. The fellow's face had a strange fascination for him. He could not keep his eyes off him, and the more he looked the more he wondered how a man so near Beecher's caliber could have trusted a person with such countenance as that. His distrust and dislike of him grew as long as he sat where he could see a view of him. "That's Moulton, of course," pointing in the direction whether his eyes had been turned. "I should not think a jury would put much confidence in anything he testified to." "Why, that is not Moulton," replied the party he had spoken to, "that's Mark Twain."

A PECULIAR MANIA.

Murtagh McLeod, a Maine Lumberman, Craved at the Sight of Horses.

By Telegram to the Post-Dispatch.
BANGOR, Me., Jan. 24.—Murtagh McLeod, a lumberman who has been in the woods for some time, was brought to this city in iron last night by a deputy sheriff. The cause of his arrest was the development of insanity which led him to attack and try to kill horses. He was sitting on a log landing sharpening long knife some days ago, when a splendid team of horses was driven up by a teamster. At the sight of them McLeod uttered a wild cry and jumped from the log and ran toward the horses and literally dismembered one of the animals before he could be stopped. The workmen around him secured him just as he was about to make an attack on the other horse. He only made a slight resistance. The man was bound hand and foot and kept in camp until a team was ready to start for civilization when he was loaded aboard and driven to a deputy sheriff. He seems to be particularly violent at the sight of animals, but since he has been confined, he has acted in a perfectly rational manner. The physician regards his case as an exceedingly peculiar one and are watching it closely.

Bricklayers and Masons' Convention—Killed While Hunting—Burglars Arrested.

KANSAS CITY, Jan. 24.—The convention of Bricklayers and Masons' International Union is still in session here. Several important matters have still to be settled, the eight hour law, the question of whether members should be allowed to take contracts and the conference with the Builders' Association being among the most important.

SEDAIA, Jan. 24.—William and John Hastings, aged 17 and 18 years, respectively, were out hunting rabbits yesterday when the gun went off prematurely and John received the charge in the breast, dying instantly.

PARIS, Mo., Jan. 24.—A negro boy 3 years of age, left alone in a room with a lighted candle, was burned to death before he could be reached by the fire. The fire was extinguished and the house saved.

ST. JOSEPH, Mo., Jan. 24.—In a raid made on a saloon here three men were captured. They were Edward Wells, John Owsley and George Wingerton.

Knights to Consolidate.

State Master Workman Wm. Butler of Missouri spoke at a Knight of Labor meeting held last evening at the hall, 604 Market street. The hall was crowded with enthusiastic Knights to hear Butler's address on "The Good of the Order," and his arguments in favor of centralization. A number of encouraging responses were made and Master Workman D. E. Lake of D. C. also made a short address. The Secretary pro tem, Frank G. Wite of D. A. U., was instructed to draft a resolution authorizing the appointment of a committee to arrange for the consolidation of the Knights of Labor organization in St. Louis. This was adopted and the committee will be appointed next week. The committee will consist of the members from the State Assembly and three each from District Assemblies 17 and 191.

BREEDING TROTTERS.

THE PROGENY OF DEVELOPED AND UNDEVELOPED SIRE COMPARED.

Money Won by Runners on the American Turf Last Year—Base Ball Taking Hold in Old England—The Intercollegiate Base Ball League Dissolved—Racing, Base Ball and Other Sports.

CONSIDERABLE discussion is going on in the East at present concerning the merits of developed and undeveloped sires. A writer, signing himself Arg, contributes the following communication on the subject to the New York Sun: In a late number of the Sun I saw a letter from Mr. C. J. Hamlin of Buffalo, in which he gives the names of some of the best performers of the past season, which, in his opinion, go to prove the superiority of undeveloped horses as sires of trotters. I am only a student of the breeding problem, but the performances of the past season have convinced me that the colts that were sired by developed sires have more than held their own. It is true that a number of undeveloped sires have been very successful in siring fast performers, but as a rule they belong to an older generation than the developed ones, and consequently have more and older colts to represent them. If development in the sire tends to reduce his chances as a sire, why is it that Mr. Hamlin places the services of his horse Chimes—sired by a trained almost continually from his yearling to his 3-year-old form—at a higher price than his undeveloped horse Mambrino King, and that of his great 4-year-old campaigner, Prince Regent, 2:15 1/2, at a higher price than that of his undeveloped sire? Mr. Hamlin is also mistaken when he says that Gen. Tracy reduced and brought out the Midway, 2:18 1/2, as he was bred by F. J. Nodine of Brooklyn. His sire, Peacemaker, sired many colts before he got Midway, while the first colt that Gen. Tracy's developed horse, Kentucky Wilkes (2:14 1/2) ever sired was Virginia Evans, that got a 4-year-old record of 2:14 1/2 last season. Prince Regent is certainly a great colt, but before making claim that he is the best 4-year-old of last season Mr. Hamlin should look over the performance of Direct (2:18 1/2), the 4-year-old son of the developed and campaigned horse, Director (2:17), that was also the sire of the great 3-year-old, Margaret S. (2:19 1/2); while Prince Regent has not won a heat since he got 2:20, Direct has won nine faster than that, and in at least two of his races—which he won—he trotted every heat faster than 2:20.

I have arranged a table, which I append, showing some of the colts of different ages, and of some of the aged horses, that made their record in the past season, and that were sired by developed sires, and any candid person will confess that, although for the greater part the developed sires are young, they have certainly made a great showing.

Winners of American Horses.

From the advance sheets of Goodwin's "Comical Turf Guide" for 1889, it appears that the total amount of money raced for last year, inclusive of entrances to purse races, and including only the money added by clubs, was \$3,779,192, as compared with \$1,377,280 in 1888. This shows, therefore, an increase of above \$2,400,000 for the year, and there were 500 more races run. West Side Park, Chicago, contributed \$219,100 in 112 days' racing, and \$14,100 for 103 days' racing and 536 races. But these clubs have not really anything to show such averages as the summer tracks. Of these Monmouth, which added \$9,212.00 for twenty days; Sheepshead for \$8,227.00 for twenty days; Morris Park, \$8,227.00 for twenty days; and Gravesend for \$7,517 for twenty-five days, while the West Side average is under \$2,000. New York and its immediate vicinity dence in jumping races, which is ascertained from the fact that there were only ninety-one such races, as compared with 150 in 1888, and only fifty-four steeples, as against ninety-six in 1888.

New Orleans Meeting.

NEW ORLEANS, La., Jan. 24.—The races here yesterday resulted as follows:
First race, six furlongs, ten starters—Skobloff came in an easy winner by a length and a half, Col. Cox second, a nose before Lida Lida, third; Legation, Crupino, Frank Clapp, John Morris, Winnie Davis, Capt. Pennyweight and Vice Regent as named. Time, 1:16 1/2.
Vice Regent was left at the post, and Jockey Gilmartin was set down by Starter Ferguson for his failure to start.
Second race, selling, five furlongs, seven-

starters—Coming home Lady Rose went to the front, winning by a half length; Van Kessel second, half a length before Bob Nemo, third; Sorrel Al, Nellie Foster, Revival and Magdalen, as named. Time, 1:08.
Jockey Sloan on Revival, was indefinitely suspended for failing to ride the horse out.
Third race, selling, eleven-sixteenths, four starters—Rose Year came in an easy winner; Bonnie King, second; Donovan, third; Mona P., fourth. Time, 1:08 1/2.
Fourth race, bidding, fifteen-sixteenths of a mile, three starters—Buckler, 105, 4 to 1; Col. Gore, 105, 4; Harry Ireland, 102, 5 to 1. They were sent away promptly, and Col. Gore, Harry Ireland second, Buckler third, and these positions were maintained from start to finish, Harry Ireland winning by a length; Ireland second, a length ahead of Buckler, third. Time, 1:35 1/2.

Guttenberg Races.

GUTTENBERG, N. J., Jan. 24.—Below are the results of yesterday's races here:

Second race, six and a half furlongs—Pat Donovan 115, Miller, first; Little Barefoot 110, Lashley second; Easterbox 115, Tarr, third. Time, 1:25 1/2.
Third race, seven-eighths of a mile—Artions 108, Hoon, first; Tyrone 115, Miller second; John Jay S. 115, Quatrefoil, third. Time, 1:30 1/2.
Fourth race, three-fourths of a mile—Folson 100, H. Penny, first; Owen Golden 97, Clayton, second; Elmstone 94, French, third. Time, 1:17.
Fifth race, one mile—Carrie G. 80, Roach, first; Violet 80, Desmond, second; Vendetta 81, Weber, third. Time, 1:40.
Sixth race, seven-eighths of a mile—Cupid 115, Tarr, first; Souvenir 101, French, second; Ralph Black 109, Hueston, third. Time, 1:35.
Turf Topics.

A renewal of the list of Woodward Park has been obtained by the New York Driving Club. Jockey Martin Bergen has gone to Hot Springs, where he will spend a month. He will be missed for a time by the turf. Joe Osborne, the well-known English jockey, was 57 years old on the 17th inst. The London *Sportman* of that date says: "It is not often a veteran, after a long career, and a pigskin for so many years, is found riding in such capital form as that shown by Osborne last season, and we cordially wish him 'Many happy returns of the day.'"

A. H. Barker, an English jockey, has failed, and on the 17th inst. he was declared bankrupt. Barker, his liabilities were \$1,369 and his assets \$330. He had been married to a woman named Ellen Barker, who was one of \$1,000 by Miss Ellen Constable on a judgment in an action for breach of promise of marriage, in which she received \$1,000 damages against the bankrupt.

It is understood that Terra, Cogmont and Little Nino, who were placed in the hands of the winter and not to be trained again. The latter horse could doubtless stand another campaign but his owner, Mr. Barker, has done enough on the turf. He is now 10 years old and since Mr. Hankins purchased him he has won a total of thirty-seven races and \$2,700 in stakes and has been runner up in the same number of races. He is both badly bowed, and while they might be good for a race or two it is almost certain neither one of them could make a long campaign. Terra Cogmont cost his present owner \$1,500 and he has won for him \$10,000 in stakes and purses, while Nino, who is entering the Hankins stable at a cost of \$10,500, has won the nest sum of \$15,494. Thus Mr. Hankins is a very successful owner on his stallions.

The College Base Ball League.

The annual meeting of the Intercollegiate Base Ball Association, held at New Haven, Conn., Monday, was brief and to the point. Delegates were present from Yale and Princeton. Tilney of Yale was elected temporary chairman. Capt. Johnson of Yale was elected secretary. A letter of resignation, which was accepted, the chairman then ruled that, under the constitution, the association could not be organized until the next year, and that the league, of Yale may arrange an independent series of games with Harvard and Princeton. Princeton may challenge Harvard to a series of games to be played in New England, somewhere away from Cambridge. President Yancy of Yale intimated that in all probability neither Yale nor Harvard would enter a league of New England colleges or form an exclusive arrangement. Everything was in a chaotic state just now, but the outcome would probably be that Yale would arrange a series of exhibition games with Harvard, and also a series with Princeton. There would be no formal championship games. Harvard and Princeton, he thought, under the existing feeling, would not meet.

Base Ball in England.

Base ball has evidently secured quite a hold on the affections of the people of England, says the New York *Herald*, for clubs have been organized and games have been played in many places in the "bright little, tight little Isle." And not only in the National Base Ball League of Great Britain has found it necessary to advertise for the addresses of those who can play ball, probably in a view of giving their advance money and apportioning them among the different clubs, as appears from the following advertisement in the latest issue of the London edition of the *Herald*:
BASE BALL PLAYERS are requested to send their names to Secretary, National Base Ball League, 85 Holborn Viaduct, E. C.

That looks as though the demand for players was in excess of supply, and that the National Base Ball League of Great Britain is in a desperate straits. Base Ball Briefs.

The Schedule Committee of the Players' League is in session at Pittsburgh. The Boston Triumvirate may give Melister, the second baseman, a trial. Hecker and Sowers are aspirants for the position of manager of the Pittsburgh League team.
Jack Rowe, the ball player, who has been ill with the grip, will leave for California for his health. He will be absent until April.
President Phelps of the American Association has not yet replied to the demand of the Syracuse Club for an extension of time in which to receive a new pitcher.
Treasure Billings of Boston has these duties to perform: the signing of Charles Bennett, the purchasing of Crooks' release from Columbus and the smoothing of Mike Kelly's ruffled feathers. He will also try to sign Nash and Harry Richardson before many days.

"We have it on good authority that there will be no league in Washington this year," says H. C. Pennybacker of the Athletic Club, "and the Syracuse club will not support an American Association club in Washington, which will gladly take the place. I think it would be better for the Association if Washington was to succeed Syracuse."

Gumbert has signed a Pittsburgh Players' Club contract, but is backed on so many conditions that it is doubtful whether the contract will be approved. He wants security for \$10,000, which is more than the Chicago club can furnish ahead of Pittsburgh. He also desires to be able to quit the Pittsburgh Club on five days' notice.

Sporting Notes.
Tachloris defeated Gunshery in the eleventh game of their chess contest at Havana.
Frank Maggioni defeated Will Hatley at Chicago last evening at 14-inch billiard, by a score of 500 to 327.
The Cornell "Varsity crew have given up the idea of practicing on the Hudson and have set to work on new rowing machines.
John D. McPherson, the professional shot putter, who in Toronto last season, was a sweeping champion to Canadian wrestlers for a catch-as-catch-can match.
At the next meeting of the Intercollegiate Association an attempt will be made to get the members of the college athletes to meet at a single place, and to have a wrestling match at each school.
